P.O. Box 8550  
Harrisburg, Pa.  
17105-8550

Dear Mr. Mitzel;

1. As indicated on your inspection report dated 9-1-92, you had questioned what became of two 55-gallon drums of chemicals, one Gensolv and one PE-18AS (toluene diisocynate). These chemicals were unused commercial products (virgin chemicals) not waste, and as such they were transferred to our 3725 Electronics Way facility for further use.

Respectfully,

Michael Herman  
Facility Supervisor
